

Eltek 100 test systems from DSE

October, 2015 System number 100 was shipped!

We are proud to announce DSE in the summer of 2015 have delivered test system no 100 for Eltek !

Eltek and DSE have worked together for more than 8 years regarding designing, producing and testing of functional test systems and fixtures as a mix of different test platforms.

DSE not only assembles the systems, but also test and preinstall Elteks NI TestStand platform.

As part of the service DSE offers is also remote review, export packaging and direct shipping of the testers and fixtures to Elteks EMS productions sites in EU, China, Brazil and Malaysia.

The test systems includes National Instruments PXI chassis, Chroma AC sources and loads and Keysight DC power supplies.

Mads Dahl, Rnd Industrialization director at Eltek says,:

"DSE delivers test systems and fixtures for our Production testing world wide and laboratory in Norway. DSE have delivered more than 100 test machines and more than 100pcs test fixtures over the last 7-8 years. The service is always good and they give us good and direct support. DSE deliver quality!"

About Eltek

Eltek is a world leader in high-efficiency power electronics and energy conversion. As a global corporation, Eltek has customers in more than 100 countries across a variety of industries including telecom, rail and infrastructure, power generation, power distribution and solar energy.
